Hi Angela,

Let me know if you need any follow up. Marylou and I are also scheduled to talk to Fran tomorrow about the call at 11am.

Thanks,

Matthew Szelag

Ann:

Sorry I just got this message. I was not available @ 9am today.

I would prefer that you talk to Angela Chung about the Feb 7th call. You can work with Angela on her schedule and I have copied her on this email.

Angela is the manager of the Water Quality Standards Unit for EPA Region 10 and she is the important EPA person to talk to about the Feb 7th call since she is managing EPA's work effort with WA Ecology.

I am just serving in an administrative support role as the email collector and the person that sent out the meeting invitation. I do not have any other substantive role at this time other than I plan to help facilitate the conversation on Feb 7th based on direction from Angela.

Thanks, Mary Lou

MaryLou:

I just talked to Fran. Are you available to talk to both of us tomorrow (Friday morning) at 9?

We just want to clear up a couple of things. Let us know and Fran can initiate a 3-way call.

Fran and I are both available for the call on the 24th at 11 am.

We can discuss the distribution list tomorrow. We're just trying to avoid confusion-- there's a lot of process going on about the FCR/WQ issue at various levels (staff and tribal leaders). I see that you sent out the notice for Feb 7 to the Columbia River Tribes. After we talk, I can forward it to the people on our list, along with all the other dates and calls that are going on in the next couple of weeks.

Ann
